### **DETAILED ACTION**

Applicant's election of Group 1 in Paper No. 9 is acknowledged.

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 30 and 31 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 30 and 31 are vague and indefinite because it is confusing how W can be at least 3 atoms in claim 30 where it is shown that it is only a Nitrogen atom.

#### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application

being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claim 26 is rejected under 35 U.S.C. 102(e) as being anticipated by Nardone et al. (6,117,986).

Nardone et al. discloses a compound identical to the instant invention see claim 4, col. 16. Claim 4 discloses a quencher where a, a', b, b', c, c', and e' can be a list of substituents such as for example a diazophenyl which is viewed to be inclusive of WX1X2 of the instant invention.

Claims 26 and 40 are rejected under 35 U.S.C. 102(b) as being anticipated by Heesemann (JACS, 102(7) pp. 2167-2176).

Heesemann discloses surface active azo and stilbene dyes. Page 2169 table I shows example of the derivatives. And dye IX is viewed to be inclusive of instant claim 40.

Claims 26 and 39 are rejected under 35 U.S.C. 102(b) as being anticipated by Claussen et al. (5,272,259).

Claussen et al. discloses stilbene dyestuffs of formula as shown for example in the abstract which are viewed to be inclusive of the instant invention.

Claims 27-29, 32-38 and 41 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
